

AMGEN INC. (AMGN-135003565)

Quarterly Filing Report pursuant to Section 13 or 15(d) of the Securities Exchange Act

1. Introduction & Executive Summary

Amgen Inc. is a global biotechnology pioneer dedicated to discovering, developing, manufacturing, and delivering human therapeutics. This quarterly compliance disclosure outlines our principal operating initiatives, financial governance status, and ongoing adherence to international healthcare regulatory mandates.

Our commitment to ethical integrity requires systematic tracking of statutory filings, ensuring full transparency across clinical development pipelines and international distribution networks.

2. Item 1A. Risk Factors & Regulatory Uncertainties

Our operations are subject to extensive and stringent healthcare laws and regulations administered by the FDA, EMA, and other international regulatory agencies. Changes in drug pricing regulations, Medicare reimbursement policies, or delays in clinical trial authorisations could materially affect our commercial outcomes.

Compliance teams actively monitor evolving biosimilar competition guidelines and patent estate litigations. Any failure to maintain good manufacturing practices (cGMP) at our formulation facilities poses operational and reputational risks.

3. Business Overview & Clinical Pipeline

During the reported quarter, commercial revenues grew across targeted oncology therapeutics and cardiovascular portfolios. Research and development investments were strategically concentrated on Phase 3 immunology trials and next-generation bispecific T-cell engager molecules.

4. Compliance, Anti-Corruption, & Global Governance

We enforce a comprehensive Global Anti-Corruption and Healthcare Compliance Program designed to ensure adherence to the U.S. Foreign Corrupt Practices Act (FCPA), the UK Bribery Act, and applicable regional trade sanctions. All commercial interactions with healthcare professionals (HCPs) undergo pre-service compliance verification and audit logging.

5. Exhibit Index & Cross References

6. Cautionary Notice Regarding Forward-Looking Statements

Statements in this filing that are not historical facts are forward-looking statements subject to risks, uncertainties, and assumptions. Factors that could cause actual results to differ materially include regulatory approvals, market acceptance, and supply chain disruptions.
